Edwin U. Diaz

1660 Peachtree St Atlanta, GA 30309 | (323) 533-1068 | ediaz62@gatech.edu| U.S Citizen | Secret Clearance

Objective

Discipline-driven Marine Corps veteran and Georgia Tech Electrical Engineering student seeking an Embedded Systems Engineering Internship for Summer 2027. Brings military leadership and operational discipline alongside hands-on experience with C/C++, microcontrollers, embedded systems, and hardware debugging.

Education

Georgia Institute of Technology | Atlanta, GA *August 2026 – Present*
Bachelor of Science in Electrical Engineering Expected Graduation, May 2028

East Los Angeles College | Los Angeles, CA *August 2023 – May 2026*
Associate of Science in Mathematics

Skills

Programming: Python, C, C++, JavaScript
Platforms: Linux (Ubuntu)
Hardware: Raspberry Pi, Arduino, PSoC 5LP(Cortex-M3)
Software: MATLAB, Altium Designer, ROS 2, OpenVINO, Unity, MicroStation
Professional Organizations: Society of Hispanic Professional Engineers, Student Veterans of America
Communication: Design proposals, technical reports, instruction manuals, presentations (large and small audiences)
Languages: English (fluent), Spanish(native), ASL (beginner)

Experience

Veterans Resource Center | Los Angeles, CA *February 2024 – Present*
JST Program Assistant
Veteran-support organization providing academic advising, military credit evaluation, and educational services to student veterans.

- Processed and evaluated 1,000+ Joint Services Transcripts (JSTs) using the MAP system, improving the readiness and accuracy of military training.
- Coordinated between veteran students and academic counselors to resolve JST, academic-record, and MAP-status issues, helping streamline military credit evaluation and student advising.

Caltrans District 7 | Los Angeles, CA *June 2024– August 2024*
Design Engineer
State transportation engineering organization responsible for the design, construction, operation, and maintenance of transportation infrastructure throughout Los Angeles and Ventura counties.

- Reviewed transportation design plans in MicroStation, identifying engineering elements, design callouts, and project requirements to support infrastructure design documentation.
- Prepared engineering exhibits and technical documentation supporting Storm Water Data Reports (SWDR) for transportation projects.

Projects

SMART Research Program | CSULA Electrical Engineering Dpt. *June 2025 – August 2025*
AI & AR/VR Research Intern
Applied technology research program focused on AI, ML, computer vision, embedded systems, AR/VR and emerging computing technologies.

- Integrated Unity and Arduino for AR simulations, sensor-data acquisition, and haptic-feedback applications, connecting physical hardware inputs with interactive virtual environments.
- Developed computer-vision applications for facial detection, emotion classification, age estimation, and real-time person/object tracking, gaining hands-on experience deploying AI workloads.

Leadership

Veterans Club | President *August 2024 – December 2024*

- Led and managed the Veterans Club, coordinating meetings and events, connecting resources to members, and recruiting veterans to grow campus engagement.
